### Time outs

Two time outs are available to each team for their game on the final day of competition, and are to be used as outlined in the World Aquatics rules. No timeouts are available at other times during the tournament.

### Forced Delay or Cancellation of Game (including electrical storms)

The championships will refer to the current Australian Waterpolo League Competition Manual, or its successor document for how to proceed.

### Extra Information/offences

Invitational teams comprised of school students of appropriate age and skill may be included on the last day if there are uneven number of teams in either division.

## Draft Draws

- Grading – All teams play each other to determine the top four in the Title Division, and the teams in the Plate Division. The first game of the grading day should involve the host regions, so that supporters who have come for the opening ceremony can stay for the game.
- Rounds – All teams must play each other within their division at least once.
- Semis & Placings – All relevant teams must play one game in each of these categories to determine final placings (except in the case of a pre-determined, alternative draw for Plate Division).

### Points allocation for Grading, and then Rounds

- Win - 3
- Draw - 2
- Loss - 1
- Forfeit - 0

### Format of Finals

- Semi-finals in both Title and Plate round, determined by 1v4, 2v3.
- Gold/silver medal game —winner 1v4 v winner 2v3.
- Bronze medal game —loser 1v4 v loser 2v3.

Finals schedules may be adjusted for the Plate Division if there are more or less than four teams. These adjustments may include:

- An invitational team to play the last placed team on the last day. This team would be pre-arranged by the Championship Convenor in consultation with the host region and approved by the QRSS Water Polo Executive.
- Each team might play each other twice during the rounds and the winner of the plate division will be decided by the top two teams playing each other on the final day, or simply the team on the top of the table.

## Possible / probable game

Must be scheduled for immediately after the last semi-final on Day 3.

Host region to make sure that pool time is available, and that the game is in the schedule.

## Results tables

The Championship Convenor will need to construct, adjust, and print tables to suit each stage of the championships.

Results tables should be updated regularly and viewable in an easily accessible space within the venue. A digital results table may be pre-arranged by the Championships Convenor with the QRSS executive.
